

GTC COMPACT

GTC Compact is a compact and practical drilling machine designed for a wide range of applications – from water well drilling to geotechnical investigations and ground sampling.

- Easy transportation and positioning
- Stable drilling performance
- Low maintenance requirements
- Adaptability to various job sites

GTC COMPACT

GTC Compact is a multipurpose drilling machine designed for professional as well as personal use.

The machine consists of a drilling mast and a hydraulic power unit as a separate component. It is powered by a Briggs & Stratton engine with electric start. The controls are progressive, and the clamping head features double drop protection for drill pipes.

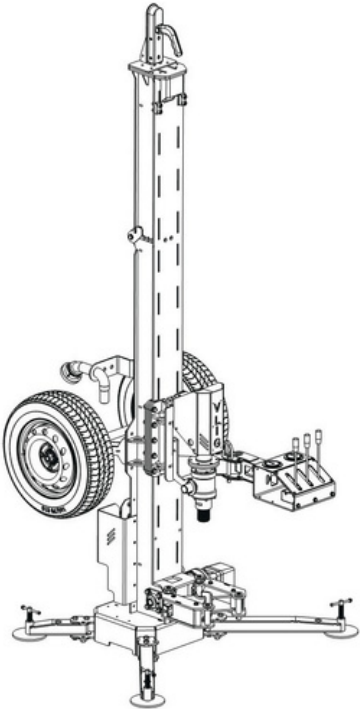

Area of use

- Water wells
- Geothermaling
- Geotechnical drilling
- Sampling
- DTH (Down the hole) drilling

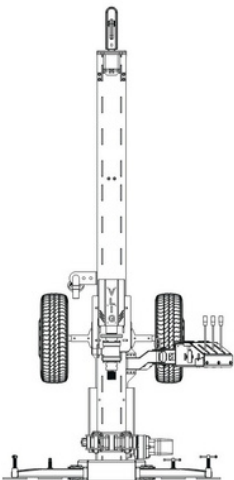

Compact Design - Built for Any Terrain

- Easy to transport and maneuver
- Professional performance in confined spaces
- Efficient fuel consumption

SPECIFICATION

GTC COMPACT

Rotary head torque	750Nm
Rotary head RPM	50
Max pull up	1500kg
Max pull down	200-1300kg
Water swivel head	Yes
Pipe feed	1.5m
Max drilling depth	80m
Max drilling diameter	200mm
Power supply	Gasoline
Engine power	14ks
